Sarah Houghton-Jan

librarianinblack.net

@TheLiB

Assistant Director for San Rafael Public Library, Sarah is an internationally known consultant, speaker and blogger on a variety of library and technology topics.

Michael Porter

libraryman.com

@libraryman

With 20 years of experience in Libraryland, Michael is CEO of [Library Renewal](http://LibraryRenewal.com), an organization dedicated to supporting libraries as they struggle to offer electronic content.

Jessamyn West

librarian.net

@jessamyn

Jessamyn is a library technologist and community manager. She writes and speaks on topics at the intersection of libraries, technology and politics.

Rachel Vacek

Head of Web Services, U of Houston Libraries

@vacekrae

Rachel is frequently a speaker at national conferences on library and web technology. In 2007 she was chosen to participate in ALA's Emerging Leaders Program.

* This year's TechNet conference will make use of QR codes. To use the codes, install a (free) QR code scanner app on your smartphone. Scanning a QR code on your smartphone is often a quick way to jump to a related web page. For more about using QR codes in libraries, visit <http://www.thedaringlibrarian.com/2010/12/qr-code-at-glance-comic-tutorial.html>.
